WEAKNESSES

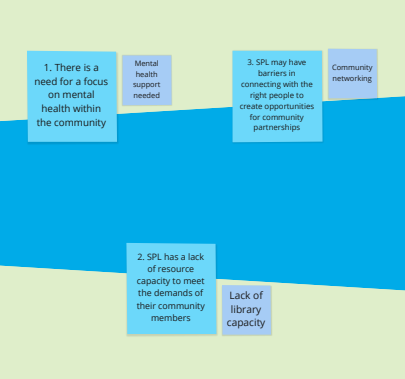

Future State:
Opportunities & Threats

These trends, challenges or emerging needs are for both a short-term and long-term timeline. They are all tangible, and doable, but should be addressed sooner rather than later.

OPPORTUNITIES

THREATS

Integration of newcomers into community

Enhance infrastructure capacity for community networking and engagement

Note: "There is a lack of opportunities for community members to engage thoughtfully with one another around topics of tender interest. Many community members already need a platform to share ideas and knowledge with one another. Some members have started volunteering to host community gatherings out of interest."
