

# MAKER SPACE

*Learn, Create, Inspire*

## a year in review

### What's a MakerSpace?

It's a place where people can come together to learn about technology and other kinds of making, to share knowledge and skills with others, and to apply this knowledge and skill by creating things.

### What does it offer?

- print and create 3D designs
- make personalized vinyl cuts
- digitize VHS, DVD, film and negatives
- create and design with Adobe programs
- develop your own buttons
