

Tote Bag Sewing Instructions

1

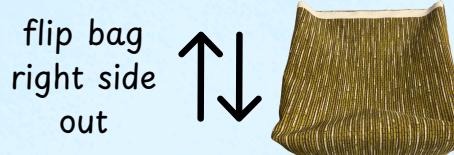

- Start with one piece of fabric measuring 18" x 36"
- Fold the fabric in half with right sides together so it becomes an 18" x 18" square
- Sew the sides with a 1/2" seam allowance, leaving the top open
- At the bottom 2 corners, cut out 2"x2" squares

cut 2"x2"
squares
on each
side

3

- Grab **two** 25" long webbing straps
- With the bag right side out, lay it flat.

- Place straps 4.5" in from side seams. Align strap ends with top edge, pin.

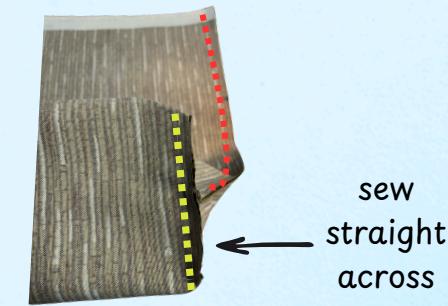

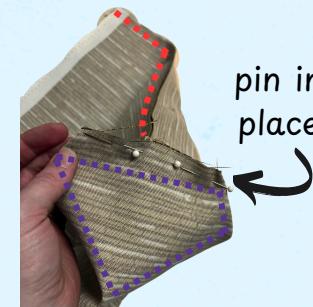

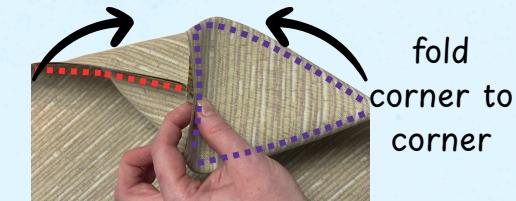

place strap
4.5" in from
the side seams

strap ends
align with the
top raw edge

2

- *sewn side seam:.....
- *bottom of bag:.....
- Open up one of the corners, and fold together so that the side seam and bottom seam match up.

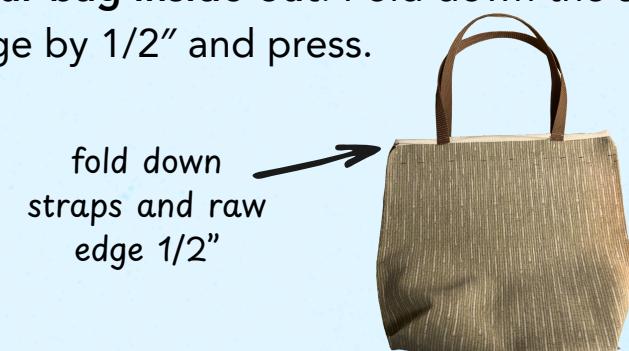

- Sew together, and repeat for the other corner.

4

- Stitch the straps 1/2" from the top raw edge, on the right side of the fabric.

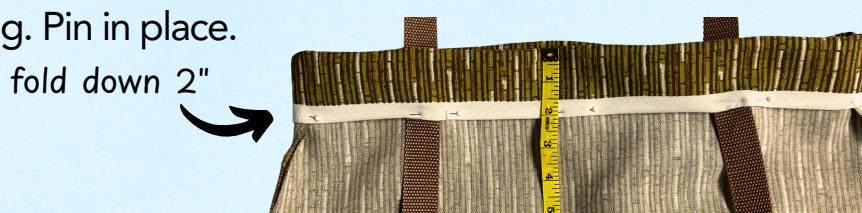

- Now **flip your bag inside out**. Fold down the straps and raw edge by 1/2" and press.

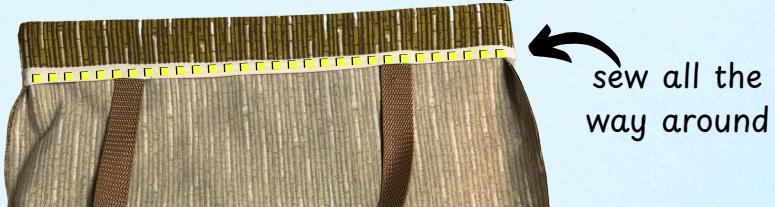

5

- Fold in again towards the wrong side, this time by 2". With straps facing downwards towards the bottom of the bag. Pin in place.

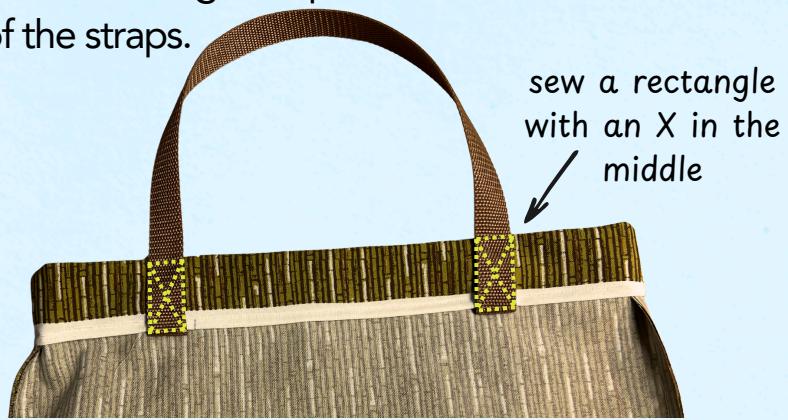

- Stitch along the entire edge, all the way around the bag, close to the folded under edge.

7

- Stitch each strap in place by sewing a rectangle, with the stitching close to each edge, and then sewing an X through the rectangle. Repeat 3 more times for the other ends of the straps.

- Now flip inside out. Congratulations, you have made a tote bag!

6

- Still working from the wrong side/inside - now flip each strap back up, making sure they are aligned straight, and pin in place.

8

Bonus- Lining!

- Choose a lining fabric and repeat steps 1 and 2.
- Insert the Lining Fabric inside the Exterior Fabric with right sides together. Line up side seams.

- Leave a 3" opening for turning your bag. Using a 1/4" seam allowance, stitch around the top edge of your bag.

- Turn your bag right side out

- Push the lining fabric into the bag and press the top edge. Topstitch around the entire top of the bag using a 1/8" seam.
